**ECPAT and Child Focus: awareness campaign “stop child prostitution”**

Within the framework of his partnership with Child Focus, SNCB also supports ECPAT and the Federal Police in the awareness campaign “stop child prostitution”.

This campaign essentially revolves around the sexual exploitation of children. In this context, the SNCB wishes to contribute to make the international travellers aware of this problem.

SNCB supports this campaign as follows:

- Distribution of posters for this campaign in the 72 big stations in the country
- Giving information to the international travellers by the diffusion of leaflets of the campaign at the international counters of the 15 biggest stations.
